### Sports Equity

Whilst it is not compulsory that this section is completed the following paragraph explains the importance.

Sport can & does play a role in promoting the inclusion of all groups in society. However inequalities have traditionally existed within sport, particularly in relation to gender, race and disability. Sport England is committed to promoting & developing sports equity, which is about fairness in sport, equality of access, recognising inequalities & taking steps to address them. By monitoring the profile of young people in the Development Programme, Ramsey Cricket Club can identify any issues relating to under representation of different groups & can develop strategies to ensure that all young people have the opportunity to develop and progress in sport.

Thank you for your help in carrying out this important element of the Development Programme process. The more information we receive through these profiles the more effective our monitoring, evaluation & future strategies can be.
